GENERATORS

CLEAN POWER

You can feel great about owning a Sol Power Generator! Using solar power, a renewable energy source, is friendly to the environment and does not burn fossil fuels!

SILENT POWER

An easy way to provide immediate power for your family that is totally silent. If you have weathered a prolonged power outage, you know exactly how important that is. Sol Power Generators are great for everyday use without bothering your neighbors!

PORTABLE POWER

A Sol Power portable solar generator system does NOT require any permanent installation to your home, so you can take it with you when you move! It can be used anywhere.. anytime!!

When not using for portable activities, plugging in your garage appliances will save on your monthly power bill!
